

Telehealth as a Service Market by Current Industry Status, Growth Opportunities, Top Key Players, and Forecast till 2029- A Report by Absolute Markets Insights

Telehealth as a Service was estimated to be US\$ 13.15 billion in 2020 and is expected to reach US\$ 25.09 billion by 2029, growing at a CAGR of 28.19% over the forecast period. Telehealth as a service market was valued at - in 2020 and is expected to reach - million by 2029, growing at an estimated CAGR of - over the forecast period. Just like every other industry, healthcare industry has also reinvented itself. With the help of internet, medical services can be accessed from any part of the globe. The accessibility along with increased demand to bring down the costs incurred on health care is taking telehealth as a service market. In today's times, where the number of young population suffering from chronic diseases is going upwards, the demand for high-quality healthcare at a lower cost is also on a rise. Telehealth as a service market is currently witnessing a favorable scenario as majority of people are seeking consultations from their physicians virtually due to the recent COVID-19 outbreak.

The demand for technology-based healthcare platforms along with favorable initiatives from several governments globally is driving the telehealth as a service market ahead. While this market has numerous driving factors, its growth may be hindered from concerns surrounding the privacy of people using the telehealth service platforms. In the internet-era, where data is considered as new crude, this precious information is more likely to be leaked online.
